EXPERIENCE

UI/UX DESIGNER | FREELANCE

Feb 2024 - Present | India

- Collaborated with the edtech startup founder to design and develop a user-friendly website, effectively showcasing their learning platform and courses, attracting students, and enhancing brand visibility.
- Designed a website for Art & Design Life, Architecture & Interior designing firm. Conducted usability testing with key target groups, resulting in a 25% improvement in user experience and a more effective presentation of the firm's portfolio and brand identity.
- Redesigned Clickpost's return and exchange flow, improving user experience within existing constraints. Leveraged user insights to optimize the process and improve overall user experience.
- Increased user satisfaction with finding order information by 17% and reduced task completion time by approximately 40%.
- Conducted in-depth user research for Servicio NGO platform, expanding the sample size by 162.5% to gain insights into user needs. Leveraged these findings to design a user-friendly web interface and refined it through usability testing, resulting in a significantly improved user experience.

WEB OPTIMIZATION & UX SPECIALIST | KINGS MINES LLC.

Jan 2024 | Remote (USA)

- Increased website conversion potential by 34% through code and image optimization, resulting in a 12% improvement in customer satisfaction (longer session duration, lower bounce rate).
- Leveraged user feedback and data insights to identify and implement 4 new features, leading to a 10-15% increase in user satisfaction and enhanced website functionality.

WEB DEVELOPER | ESPARTA OUTSOURCING LLC.

Aug 2023 - Dec 2023 | Remote (USA)

- Successfully launched 3 e-commerce websites (2 full stores and 1 product catalog) built on WooCommerce (WordPress) within a tight 4-month timeframe, employing Agile methodologies to effectively manage and prioritize projects, aligning with overall business strategy
- Leveraged user research (surveys & A/B testing) to identify usability issues and inform design decisions.
- Collaborated directly with the C-suite executives to discuss project progress, gather strategic direction, and understand client needs.
- Enhanced website SEO performance by 11.4% within a one-month period.

LEADERSHIP EXPERIENCE

LEAD | GOOGLE DEVELOPER STUDENT CLUB

July 2022 - June 2023

- Led and recruited a team of 10 people (developers, designers, and organizers) in planning and executing 5+ workshops for the club.
- Prioritized topics, managed project timelines, and ensured successful delivery of workshops, attracting and engaging over 100 attendees.
